THANK YOU!!

Special thanks

To Gondar Relief, Rehabilitation and Development Association (76109) / GRRDAI

We are very glad to write this thank letter. When we write this thank letter we want to give a heart gratitude to every individual who is involved in this voluntary work i.e helping students who are financially poor.

We, Amanuel Tesfahun and Dessalegn Zemene are now promoted to university from grade 12th. Amanuel joins Gondar University in the faculty of Veterinary medicine, and Dessalegn also joins Gondar University in the faculty of Medicine.

As you know we emerged from a poor family. We completed our preparatory education with financial problems. But your help reached at our Grade 12th and we relieved from many of our problems. Using the money you gave us, we were able to fulfill much of our needs, especially educational materials. To say the truth your help is very essential not only for us but also for students like us. We have scored satisfactory result and this is really part of your help and it shows your patriotism.

In addition to this we want to point you that your help is so important that it can produce many talented students for Ethiopian Renaissance. So please continue such kind of voluntary activities. If it is your will, we are very happy to receive your help at our campus program because we will face many financial problems in the program for instance copying notes/material costs much and we want some reference books but these are beyond our economy.

Finally we want to thank again and we promise to join such activities! at any time we are able to do so.
