GONDER RELIEF, REHABILITATION AND DEVELOPMENT ASSOCIATION (GRRDA)

SCHOLARSHIP PROJECT

ANNUAL REPORT 2019/2020 (2012 E.C.)

SUBMITTED TO: Gonder Development Cooperation Organization (GDCO)

ADDIS ABEBA, FEBURARY 2021

I. Project Key Data

Project title	Scholarship grant for high performing students in high schools who do not get adequate support from their families						
Project location	North and South Gonder zones (in former administrative classifications) in 40 woredas in 45 schools						
Grant period	September 2016 to June 2022						
Reporting period	September 2019 to December 2020						
Project beneficiaries	270 preparatory school students						
Project General objective	General objective: To enable high achiever students who do not get adequate support from their families to complete their preparatory level and pursue higher education to become fulfilled citizens Specific Objectives: To provide financial support for 270 selected preparatory level students for two years (11 & 12 grade students) annually. To encourage other students to compete and aspire to achieve higher grades in their studies To reduce the burden of family members of students to fulfill their children's education expenses.						
Project budget 2020	ETB 540,000; Total expenditure ETB 530,000						
Funding Agency	Gonder Development Cooperation Organization (GDCO)						
Implementing agency	Gonder Relief, Rehabilitation and Development Association (GRRDA) in partnership with North and South Gonder zones Education Departments						

1. Introduction

Gonder Relief, Rehabilitation and Development Association, GRRDA, is a membership organization which is non-political, non-religious and non-profit making established in 1992 by interested individuals of natives of Gonder. The objective of the association is to contribute to the efforts in the eradication of poverty and promote the socioeconomic development of the people of Gonder covering the former North and South Gonder administrative zones. GRRDA, is re-registered by the Agency for Civil Society Organizations based on the new Proclamation No.1113/2019.

The vision of GRRDA is to see the people of Gonder free from poverty and enjoy decent life and its mission is to bring sustainable change to the people in North and South Gonder zones through implementing programs focusing on education, health, water and sanitation, employment creation and natural resources preservation,

GRRDA has been implementing projects in partnership with organization having common goals and stakeholders' participation. In its course of life, GRRDA has implemented projects that include school expansion and improving school standards, fulfilling school materials; building clinics and improving health facilities with health equipment support which made the services accessible to target communities.

GRRDA also intervenes in emergencies when they occur in its operational area. In the reporting year, flood overwhelmed persons in four woredas (3 in S. Gonder and one in N. Gonder zone). Over 34,690 persons were affected, lost their property. According to the south Gonder Zone Disaster Risk Management and Food Security Department their planted farm land was covered by water and 8,213 hectare farm land was damaged. Affected persons were displaced and suffered a lot. Social services such as schools, clinics, farmers training centers were overwhelmed with water and were out of service. GRRDA in a bid to support the affected communities has played a role by mobilizing its members and supporters; raised fund and supported 637 households with improved seeds of 101 quintals of teff, chickpea and corn. This emergency project was implemented in partnership with zonal Disaster Risk Management and Food Security Departments of the two zones.

The core project that GRRDA has been embarking on was the scholarship project for preparatory school students. This project has been an ongoing since 1996. The project is ran in partnership with GDCO in terms of funding and related technical support. The project aims at supporting students at preparatory level (11th and 12th grade) to enable them to continue their education so that they are able to move on to the next higher level i.e. college.

GRRDA mobilizes members to support in various ways that include financial contributions to the implementation of the different projects as well as technical expertise voluntarily.

However, in the reporting year GRRDA could not raise the intended fund for the scholarship program. One major reason was, members and supporters had participated in the fund raising program organized by GRRDA towards the end of 2019 to support internally displaced persons (IDPs) due to the conflict between Qemant and Amhara. At the same time members and donors were requested to contribute for a number of emergencies happened in the country by different bodies that include Amhara Regional Government, Addis Abeba City Government and by Federal Agencies. Thus, GRRDA members and supporters were exhausted of contributions. Another reason was the outbreak of COVID-19 following the state of emergency to contain the spread of the virus, businesses, government and nongovernment offices were in lockdown and movements were restricted. This has affected GRRDA greatly; members and supporters were not able to meet, discuss, and share information on their association's programs and contribute for the scholarship fund.

Thus, GRRDA putting this issue to GDCO requested to increase the number of students it is supporting from 135 to 200 (total number of students in the program were 270). GDCO realizing the financial stand of GRRDA has decided to cover all the scholarship cost for 2020.

This report covers the physical activities accomplished and the corresponding financial performance and challenges encountered in the reporting year of 2019/2020 (2012E.C.). In this report the list of students supported from each target school in the former North and South Gonder zones is attached.

2. Context of the country and Gonder area in 2020

Ethiopia has undergone a political reform in the last two-and half years. The ruling party EPRDF is replaced by Prosperity Party led by the Prime Minister Dr. Abiy Ahmed. Following the change of the new administration, many political unrest took place in all corners of the country which resulted in the death of many citizens and displacement due to ethnic based conflicts. The 6th round election was postponed due to the outbreak of COVID-19. TPLF ones a dominating party in the coalition of the parties since 1993 has alienated itself from the federal government and has undertaken regional election which was said against the Constitution and the will of the central government. The stalemate between the two bodies has led to war which has caused many costs in human life; plight of tens of thousands of people out of the country and damaged social infrastructure that has a resultant effect on the country's economy at large. The economic and social impact of the war is yet to be documented.

In other regions ethnic conflict had caused the death of many people and displacement. The notable ones in 2020 were ethnic cleansing in Gambella and in Gurafereda locality in SNNPR aiming at one ethnic group. The killing of persons in these areas has been a daily happening.

In the economic sphere, the country has dwindled from its revival position in 2020 mainly caused by the outbreak of COVID-19 which left many manufacturing and service industries out of function. The tourism and hotel industries were highly hit by the pandemic. The cost of living has escalated significantly and affected many citizens; the cost of food items has been raising at an alarming rate. Unemployment in the country has reached over 25%. The government has expanded the safety net program to urban areas as well to mitigate the prevailing problem. The political atmosphere and the outbreak of COVID-19 has curtailed the investment opportunity which left the economy to decline. According to the Ethiopian Government report the economy has grown by 6% in 2020 while the reports in the previous couple of years indicated that the economy had grown by two digits (11%).

The social services were highly affected in 2020 mainly caused by the outbreak of the pandemic which caused compounded impact. Schools were closed for about ten months due to the pandemic which exasperated the problem further and put pressure on the education system that eventually compromises the quality of education.

The health sector is another sector affected due to the pandemic. As all resources were geared to protection of the virus, other services were neglected due to fear of contracting the virus as well as the health professionals were engaged in attending patients related with the virus mainly in towns and main cities.

As the result of heavy rain that was beyond the normal amount, rivers flow out of their banks and flood emergency occurred in Afar, Oromia, Southern Nations, Nationalities and People's Region and Amhara Regions. Many people were displaced and were in need of emergency assistance. The flood emergency was severe in Afar, South Omo zone and along the Awash Valley ranging from Oromia to Afar region which many people were affected.

Another emergency happened in 2020 was the invasion of grasshopper in some parts of the country i.e. Afar, Amhara, Tigray and Oromia Regions along the belt known for their agricultural products. This phenomenon has caused the devastation of many agricultural fields covered with green plants.

The people in Gonder living in rural and urban areas of the zones and woredas were directly and indirectly affected by the political, social and economic environment

prevailed in the country in 2020. The notable one was the outbreak of the pandemic. The impact of the pandemic in terms of the number of patients and death from the pandemic in the area is not yet clearly known in Gonder zones. However, as indicated in different reports the hotel and tourism industry is one of the economic sectors that is highly impacted by the pandemic as tourism is the engine of the economy in the area. From the political seen, the conflict that was ones a major cause of insecurity in the area (the conflict between Amhara & Qemant) was greatly subsided in 2020.

The flood emergency affected three woredas (Fogera, Libo Kemkem and Dera) in south Gonder and one woreda (East Dembia) in Central Gonder zone where over 34,000 people were affected and were in need of emergency assistance. The other recurrent social and economic development challenges that include food insecurity, lack of access to social services and unemployment/underemployment have continued prevailing in the area in 2020.

3. Objectives of the project

3.1. General objective

The general objective of the scholarship project is to enable high achiever students who do not get adequate support from their families to complete their preparatory education and pursue higher education to become fulfilled citizen.

3.2. Specific objectives

- To provide financial support for 270 selected preparatory level students for two years (11 & 12 grade students).
- To encourage others to compete and aspire to achieve higher grades in their education.
- To reduce the burden of family members of students to fulfill their children's education expenses.

4. Beneficiaries of the program

The program is implemented in partnership with zonal education departments, woreda education offices and schools. In the two zones (North and South Gonder) 45 preparatory schools covered by the project; 27 in North and 18 in South Gonder zone. Every year six students are selected from each school (3 from 11th & 3 from 12th grades maintaining female and male balance) to be supported by the project. The selection criteria includes the following:

- High academic performance of students in 11 and 12th grades,
- Not getting adequate financial support from families,

Having good conduct and free from addiction of any type.

A committee is formed from each school and the committee selects students eligible for the scholarship award. The Committee is composed of the following:

The school director
Parents representatives
Teachers representatives
Students representatives

At the beginning of every academic year, GRRDA sends a request with templates to Education Departments of the two zones to send the names of selected students so that the process is finalized ahead of time. The Education Departments send same request to preparatory schools administration. Each School committee selects eligible students for the scholarship opportunity based on the criteria set and record in the minute which every member should sign. Then the school directors send the names to the Education Departments with covering letter. Each Education Department compiles and sends it to GRRDA with covering letter which is duly signed and stamped.

This is highly process oriented system. This is done deliberately to ensure that the real target students are selected as well as to ward off any complaints of community members, parents and students. Moreover, it is to make the process more transparent and make sure that everybody along the line are responsible and owns the project.

5. Implementation strategy

GRRDA had employed a set of strategies to implement the scholarship project. Among others the following strategies were adapted:

- Partnership: there are a number of partners that are pertinent for the success
 of the project. GRRDA is working in partnership with GDCO and Zonal
 Education offices. GDCO is providing fund and technical advice in the
 implementation of the project while the partnership with the government
 supports on facilitation of the selection of students and supporting the overall
 process.
- Stakeholders' participation: stakeholders that include parents, school administration, teachers and students participate in the process of project implementation. Moreover, government offices at zonal and woreda level participate in the process of implementation and evaluation of the process as well as the results.
- Voluntary technical group: GRRDA uses experts to give service in pro-bono. A
 technical group is formed to provide support in project development and
 refining proposals as well as following up project implementation. These
 volunteers are highly experienced in the wider fields that they have expertize.

- Mobilizing members and supporters of GRRDA: GRRDA has been raising awareness of members on annual meetings and other gatherings to inform members on the progress of the project and the result of the project in supporting students.
- Ensure that all scholarship beneficiaries have a bank account in their name and a telephone address.
- The grant is released to students in two instalments; the first after finalizing
 the first semester and the second towards the end of the second semester.
 The grant is transferred to the accounts of students directly from GRRDA
 offices.

6. Accomplished activities in 2020

6.1. The process:

In the reporting year 2019/2020 (2012 E.C.), schools were providing the usual services up to March 17, 2020. However, due to the outbreak of COVID-19, schools were closed and students were advised to stay at home. Since then, there was no any teaching and learning activity until they were reopened in October 2020. But before the lockdown, the two offices of GRRDA (Gonder and Debre Tabor) had collected the basic data of students that include:

- Selection of beneficiary students at preparatory level was completed. Six students from each school were selected from 45 schools (27 from North Gonder and 18 from South Gonder zones) following the criteria set.
- 270 students (34%female); 162 from North Gonder and 108 from South Gonder zones were selected by the committee set in each school.
- Official letter containing the list of scholarship beneficiaries with supporting documents that comprised signed minutes of school committee members were collected from the Education Departments of the two zones and submitted to GRRDA branch offices.
- Every student data were collected including their profile with their photos and bank account.

GRRDA had insufficient fund to pay the first semester for students and was preparing to initiate fundraising event and to discuss the issue with members during the General Assembly (GA) of members which was planned by the end of March 2020. However, due to the outbreak of the virus, state of emergency was declared followed by lockdown and restriction of movement. Because of this the GA was not conducted.

Sometime before the lockdown, GRRDA board had discussion with the GDCO board member responsible for the scholarship project Dr. Genet Desta, GRRDA put forward the issue that GDCO to increase the number of students it is supporting to 200 from 135 and the rest 70 students would be supported by GRRDA. Considering the financial crisis of GRRDA, the GDCO board decided to cover the whole cost of the 2020 scholarship grant in support of GRRDA. GDCO transferred Birr 547,300 (USD 16,875)

to GRRDA's account. GRRDA, hold transferring to students because schools were closed and students were not learning.

But after schools were reopened in October, GDCO recommended that the scholarship grant should be paid to students as students have completed more than half of the academic year of 2019/2020.

Following that advice, GRRDA offices rechecked and verified the students' data to ensure that students have returned to schools. GRRDA offices contacted school directors and checked whether the students are attending or not. Thus GRRDA paid the grant to students through bank account.

6.2 Payments made for scholarship beneficiaries

6.2.1 North Gonder zone

Planned and accomplishment of the project in North Gonder zone

No. o	No. of schools covered by the project from each zone (new zone								
		str	ucture)						
Gonder	North	West	Central	Total	Total students	Total			
town	Gonder	Gonder	Gonder	schools		budget			
4	5	3	15	27	162	324,000			
					Female 55 (34%)				
					Male 107 (66%)				

Accomplishment

a) Preparatory School Students scholarship project

Gonder GRRDA branch office has confirmed that 160 students were back to school after the reopening of the school and checked other information.

• The amount paid for these students was 160X Birr 200 X 10 months= Birr 320, 000.

6.2.2 South Gonder zone

Preparatory school students

In South Gonder zone, the scholarship program beneficiaries were drawn from 18 preparatory schools and 108 students were selected in the reporting year and the budget earmarked was Birr 216,000. However, when refining the number of students with school directors two students didn't returned to school or have quitted. Other

information of the students such as bank account etc. were checked from school directors. Total number of students supported were 106. Each student was supported with Birr 200 per month for ten months (one school year) which made the annual support Birr 2000 per student per annum. The total amount paid for all students was Birr 212,000.

6.3 Overall summary of scholarship project accomplishment

The following table summarizes the overall accomplishments in the reporting year containing number of beneficiaries and amount of support.

Zone	No of schools	No. of be	neficiarie	es	Budget pe	Budget performance		
		Planned	Accom plished	%	Planned	Amount paid	%	
N. Gonder zone	27	162	160	98.7	324,000	320,000	98.7	
S. Gonder zone	18	108	106	98.1	216,000	212,000	98.1	
Total	45	270	266	98.5	540,000	530,000	98.1	

7. Challenges

The project implementation was with many challenges both internal and external. The following were the core challenges identified during the reporting period:

- Outbreak of COVID-19 was the major challenge in 2020; schools were closed for nine months, lockdown of businesses and services had caused the disruption of the socio-economic activities which impacted the overall situation of the country and the smooth implementation of the scholarship project.
- Inability to raise fund for the project due to fatigue of donors and supporters; members and supporters of GRRDA were overcrowded of multiple contributions including from government and local administrations and other social networks.
- So far it has become a challenge to track scholarship awardees to participate in GRRDA's activities as a way of succession.
- As new preparatory schools are established by the government, the number
 of preparatory schools requesting to be included in the program is increasing.
 In 2020 there were 40 preparatory schools in North Gonder and 24 in S.
 Gonder which makes the total to be 64 preparatory schools. The program is
 covering to date 45 schools in the two zones.

• Follow up and monitoring of the project implementation was a challenge due to the spread out of the schools and budget constraint for such purposes coupled by the outbreak of the virus which restricted movement of persons.

8. Conclusion

The country had encountered many challenges in the reporting year that impacted negatively the socio-economic situation of the country. Ethnic conflict has led to the death of many people and displacement. The war between the federal government and the TPLF has caused a lot of people to die and be displaced. While the country was besieged with political and economic challenges, the outbreak of the pandemic compounded the problem of the country further.

The year 2019/2020 was a challenge for the implementation of the scholarship project. COVID-19 caused the major challenge which impacted the socio-economic situation of the country. Closure of schools due to the pandemic hindered to implement the project properly. After schools were reopened in October 2019, GRRDA, reassessed project beneficiaries, checked the data of students that were selected for the scholarship project. Eventually GRRDA reached 266 students (98.5%) in the two zones and paid Birr 530,000 (98.1%) to the students.

The heavy rain during the winter season has caused the onset of flood emergency in four woredas of South and North Gonder Zones which affected 34,000 persons. GRRDA embarked on raising fund for flood victims. In total Birr 604, 300 was collected from supporters and donors out of which 64.84% was raised by GDCO. This fund was allocated to the two zones according to the number of victims in the woredas. The fund was used for the purchase of improved seed for farmers to replant the devastated farm land due to the flood. All in all 637 farmers were provided with improved seed of teff, chickpea and corn (please refer the separate report).

End.
